and more

Audiovile (audio book)

by Michael A. Arnzen

Spring 2007

Audiovile is Michael Arnzen at his weirdest and, well, most vile. Known for his entertaining and over-the-top readings he now takes it one step further with the addition of some musical madness. This is not so much an audiobook as it is an album of flash fiction, a truly unique experience. Most of the 16 tracks are taken from the ground-breaking short story collection 100 Jolts but the CD also includes some new material.

"Horror is the genre of the jolt, the shock, the spark. The horror story's conflict is always a matter of life and death, but death...almost always comes too soon—that's why we fear it." Michael A. Arnzen

And now readers have a new reason to be afraid. One hundred new reasons!
